

Dear Resident,

As part of our continuing efforts to provide reliable service, New Jersey Natural Gas (NJNG) has contracted with Kiely Construction to upgrade our services in your area. Construction is scheduled to begin in the near future.

Please note if you are an NJNG customer, this work may require an interruption to your natural gas service. We will do everything possible to minimize the inconvenience as we work to complete this important upgrade. NJNG and/or Kiely Construction crews will contact you in advance of the interruption.

If you are not home when work begins and it's necessary to interrupt your natural gas service, please contact NJNG at 800-221-0051 (and when prompted, say "reconnect") so we can promptly restore service. For your safety, we will require access to your premises to relight your appliances and ensure natural gas is properly flowing. **We will not interrupt your service without prior notification and communication with you.**

Please feel free to contact us with any questions regarding this project.

**Rick Hoffman**

Thank you for your patience and cooperation. We appreciate your business and look forward to many years of continued service.

Sincerely,

New Jersey Natural Gas

*If you are an NJNG customer, please look for our customer satisfaction survey that may be sent to you in the future. Your feedback is greatly appreciated.*
